500 Most Common Persian Words: Flashcards

10 decks of 50, from the most frequent words. Persian on the front, English and pronunciation on the back.

Study these cards online with audio, quizzes and a spaced-repetition scheduler that remembers what you know:

How to print and use the cards

1. Print pages 2–101 **double-sided, flipping on the long edge**. Each English page then lands behind its Persian page.
2. Cut along the dashed lines. Thicker paper (card stock) lasts longer.
3. Look at the Persian side, say the meaning out loud, then turn the card over to check.
4. Make three piles: *know it*, *almost*, *not yet*. Review *not yet* every day, *almost* every few days and *know it* once a week.

Words are in standard written Persian; where everyday speech differs, the English side says so (for example: spoken dige). Pronunciation uses â for the long a (as in father), kh for the sound in Bach, and gh for the Persian gh/q sound.
