Pronunciation

The regular letters used for written Farsi stand for some different sounds. It is usually difficult to tell how a word is pronounced just by looking at how it is spelled. Therefore, it is useful to show the pronunciation of each word separately, using a system of symbols in which each symbol stands for one sound only. The pronunciations of letters and words are given within two slashes.

This book uses a simple spelling system to show how letters and words are pronounced, using the symbols listed below.
